The challenge

Email delivery was unreliable

The solution

Basic Email Hosting allows for dependable email delivery.

Location: Forest Lake, MN

Established: 2006

Background

In2ition is a primary market research company located in the Twin Cities area of Minnesota, the heart of the medical device industry. In2ition has over 15 years of project management and market research experience, including project definition, research design, fieldwork management, data analysis and presentation. They help clients translate the vision of what they need into the right market research by offering a unique balance of research and consulting service solutions.

Challenge

In2ition is comprised of a small team of people who thrive on information flow. Beth Larson, co-owner of the company, noticed that emails were not making it into her inbox. Her email provider could not remedy the situation.

Solution

A trusted associate referred Beth to A&J Computers Inc. A quick conversation with A&J Computers and the positive recommendation sealed the deal for in2ition. The conversion was handled quickly to minimize downtime and all email is flowing.

"A&J Computers Inc. has been great. I'm very busy and don't have time to deal with technical issues, so any questions I have get resolved quickly."

— Beth Larson, co-owner

Results

By switching to A&J Computers Inc., in2ition was able to:

- Effectively Send and Receive Messages without Interruption
- Utilize Spam and Virus Filtering
- Support All Common Email Protocols
- Use Full-Featured Web Mail Abuse Detection and Prevention
- Synchronize Group Contacts, Calendars and Tasks with Outlook
- Support RSS Feeds

About A&J Computers Inc.

A&J Computers Inc. was founded in 1989 to provide businesses, home users and home offices with a combination of IT services usually only found by having agreements with a number of different providers. By providing a single point of contact for all of an organization's IT needs, we help companies save time and money. Each of our senior staff has more than 20 years of experience each in IT-related fields and maintains certifications from numerous technology companies. Our clients are diverse and span Industries such as manufacturing, real estate, technology, financial services, legal, personal care, retail, non-profit organizations and recruiting. We build and manage the technology infrastructure necessary to advance client business strategies and vision.
